SOUTH BAY LOCAL  
AGENTS WITH OVER  
40 YEARS OF  
EXPERIENCE

"I was attracted to Pacifica Properties Group by the local Realtors who started this company: All highly respected and seasoned professionals who are community minded and simply just great to work with. The knowledge, energy and camaraderie is like nothing else in the industry. After years with large corporate real estate firms, I look forward to being a part of this dynamic group who are in control of their destiny."

"When given the opportunity to join Pacifica Properties Group I knew I had finally found my home in Real Estate. Their mission is to not only to be a successful Real Estate Brokerage, but to be THE LOCAL Real Estate Brokerage. We are a family, with the same goals and visions. Giving back, not only financially, but spending time volunteering for causes in our own community, shows that we are not just realtors, we are individuals who want to show our support and love for the people we share this awesome South Bay with."
